Data Collection Associate

Description

We are seeking reliable and detail-oriented individuals to join our team as Data Collectors. In this role, you will be responsible for gathering basic information from designated locations and accurately recording the data as per project requirements.

Responsibilities

Key Responsibilities:

- Conduct basic data collection activities from assigned areas
- Record and maintain accurate data in the specified format
- Follow instructions and data collection guidelines carefully
- Submit collected data within given timelines
- Ensure integrity and quality of the information gathered
- Basic communication and comprehension skills
- Ability to follow instructions and work independently
- Attention to detail and accuracy
- Willingness to travel locally for data collection tasks
- Prior experience in data collection or fieldwork is a plus (not mandatory)

Qualifications

- Bachelor's degree in any discipline.
- Freshers are welcome to apply.
- Experience in surveys, market research, data entry, or field research will be an added advantage.

Job Benefits

- Competitive salary with timely payments.
- Performance-based incentives and annual appraisal opportunities.
- Comprehensive training and onboarding for freshers and experienced candidates.
- Career growth opportunities within the organization.
- Hands-on experience in market research, data collection, and field survey projects.
- Exposure to real-world research and business analytics assignments.
- Friendly, supportive, and collaborative work environment.
- Opportunity to work with experienced researchers and project managers.
- Skill development in data collection tools, Microsoft Excel, Google Sheets, and survey platforms.
- Flexible learning environment with continuous professional development.
- Paid leave and company holidays as per organization policy.
- Travel allowance or reimbursement for approved fieldwork (if applicable).
- Certificate of experience and recognition for outstanding performance.
- Opportunity to participate in national and international research projects.
- Stable, long-term employment with continuous learning opportunities.
